## CLIMATE FORUM SERIES

# FLOODING & FLOOD PREPAREDNESS

**W**hat are the different types of flooding?

**W**hat are the risks of floods?

**W**hat can communities do in an emergency?

**W**hat can communities do to adapt?

Many communities throughout New York City are prone to flooding, and in recent years, flooding has occurred more frequently, causing millions of dollars of property damage and even loss of life.

Learn about different types of flooding and its causes, and how you can prepare yourself in case of a flooding emergency and for the long-term.

Please register for this FREE event at:
